

Denis Filatov  
Software Engineer

Profile

Experienced software engineer with hands-on tech skills in JS/TS, React, Node, Python, C# among others.

Employment History

VP / cofounder, Drop Table

APRIL 2022 – PRESENT

Software Engineer, Amenify

NOVEMBER 2020 – JULY 2022

- Implemented GraphQL Schema Federation into a monolithic application, which allowed us to start dividing it into microservices.
- Created and maintained several web applications within the product’s super-app.
- Set up integration testing within CI/CD pipeline.

Full-stack Developer, Code Art LP

JUNE 2018 – NOVEMBER 2021

Worked on various projects, mostly as frontend dev with react ecosystem (js/ts). I can easily adapt to any backend language (js, python, ruby, c#, golang, and more) and become involved into backend jobs.

Lead .net developer, DDPlanet

MARCH 2017 – MAY 2018

I had led team through company's projects, designed architecture and chose tech stack. Successfully implemented modern front-end in new project and have trained the team. Also, during work made custom xml crawlers, cqrs-es solution based on mssql and elasticsearch.

.net developer, CMSplanet

MAY 2015 – FEBRUARY 2017

Customers websites maintaining (ASP MVC), async web/xml crawler supporting and upgrading.

.net developer, Sintek

DECEMBER 2014 – MAY 2015

I supported complex legacy website that was made with ASP. I had developed internal server health monitoring service (asp mvc, bootstrap, google charts).

WPF developer, DevExpress

NOVEMBER 2013 – DECEMBER 2014

I have been developing new and supporting existed visual controls. I was learned wpf program developing and wpf framework internals.

Education

Engineer, Tula State Lev Tolstoy Pedagogical University, Tula

SEPTEMBER 2010 – JUNE 2015

Math, Software, Database administration
